8th Edition of Mozambique Mining, Oil, Gas and Energy Conference and Exhibition (MMEC), June 02 - 03, 2022

Ladies and Gentlemen,

The Ministry of Mineral Resources and Energy announces the upcoming 8th edition of the Mozambique Mining, Oil, Gas and Energy Conference and Exhibition (MMEC), which will take place from 02 – 03 June 2022, in Maputo, Mozambique, at Joaquim Chissano Conference Centre.

MMEC is a global event that annually brings together experts, leaders of the Mining, Oil & Gas and energy industry, and decision makers in Mozambique, the region, and the world. In the 2021 edition, MMEC counted with the participation of more than 300 delegates from 25 countries.

This event presents business opportunities in the natural resources sector for business-to-business transactions, partnerships, and investment agreements between conference delegates. It is also a platform to exchange ideas and opinions on the latest developments and challenges in the industry, as well as policies, incentives, and investment opportunities.

The theme of MMEC 2022 is “SUSTAINABLE DEVELOPMENT ACROSS THE ENTIRE MINERAL AND ENERGY VALUE CHAIN, TOWARDS A LOW CARBON FUTURE”, in a context where the effect of global climate change has been profound on the Mozambican economic activities in recent years. It is in 2022 that Mozambique

will start the production of Liquefied Natural Gas from Area 4 Coral Sul, with foreseen restructuring gains for the country.

Aware of the climate change agenda and the benefits of exploiting the country's resource for sustainable development, the Government of Mozambique is committed to implement good practices throughout the industry's value chain, prioritizing local content, creating synergies and initiatives that preserve the environment and the reduction of carbon emissions, as a means to ensure sustainable development of the communities and the country.

We look forward to welcoming you to Mozambique and assure you the warm hospitality of our people during your stay.
